# Penthouse, Mayfair, W1

---

Residential property in the heart of London. Artwork selected is playful and colourful to suit the vibrant spaces in this converted penthouse.

# Residential Property, The Cotswolds

---

To suit this modern and design-led home we chose a selection of abstract and neutral paintings paired with works inspired by nature to reflect the rural setting of the property.

# Coastal Home, Kent

---

Modern beach vibes for this cool and contemporary home, we mixed a selection of seascapes and flamboyant screen prints to add colour and warmth to the space.

## Mansion, Ascot, Berkshire

---

This Georgian mansion required works that would enhance this grand and opulent home, gold leaf featured on works on paper while woven works added elegance.

## Residential Property, Wimbledon

---

A new build with sleek design and large, spacious walls, we proposed a selection of abstract artworks with earthy tones to reflect the modern look and feel of this exquisite home.

## Residential Property, Islington

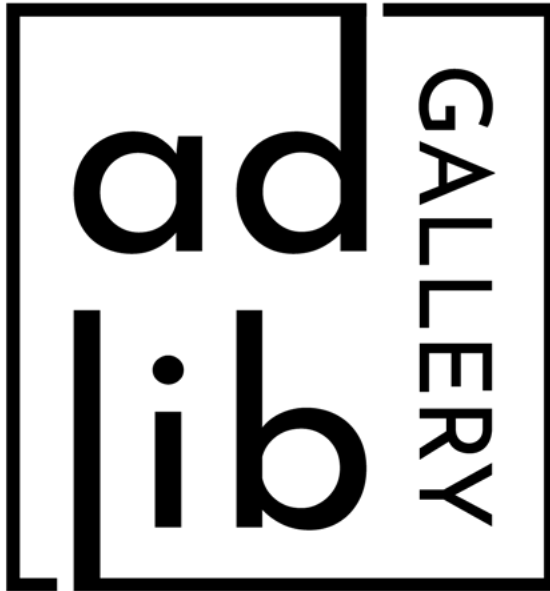

---

For this stunning red brick and newly modernised North London home we sourced a selection of contemporary abstract pieces. The works are minimal and cool, tonally neutral, and a reflection of the wider styling.

Thank you
